

Silhouette™ is an external cladding system which opens up a whole new world of possibilities for creating a building's personality.

The Silhouette™ external cladding system:

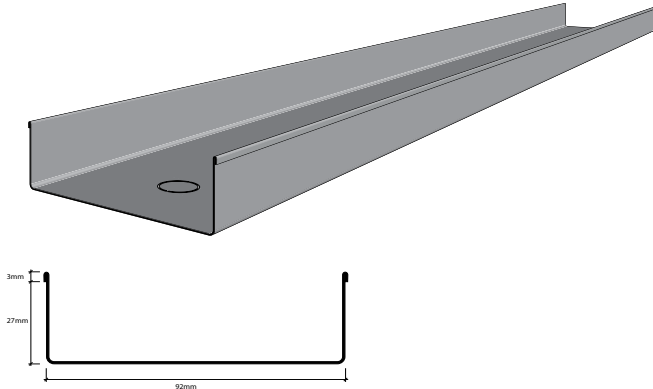

- better engineered
- easier and quicker – thinner material to work with; self aligning
- simple to build with – uses same construction solutions as a standard weatherboard
- offers a new standard of finish – seamless, bold appearance
- lighter – ideal for transposables, extensions, general residential and battened out walls
- economical – no waste in laps; competitive price
- choice – 3 individual styles to choose from; additional custom design possible

CurveBoard™ is flexible plasterboard that allows bending to create curved internal walls and ceilings.

CurveBoard™ Plasterboard:

- provides flexibility and freedom to construct sharply contoured walls or ceilings
- allows bending to small radii
- has recessed edges on long edge to provide a continuous surface once flushed
- saves time and money on installation requiring curves
- lightweight and easy to install
- can be easily applied to timber or light-steel framing or masonry

RONDO®

Rondo Wall Track is now hemmed, making it a safer and stronger product. Rondo has added a safety hem of 3mm along the entire length of both edges of their standard Wall Track products.

- minimised exposure to sharp edges, reducing the likelihood of metal cut injuries when handled
- safe to handle and install without hindering construction speed or efficiency
- available in most of their standard sizes
- stronger and more rigid product

BGC CurveBoard
BGC Plasterboard & Ceilingboard
BGC Wet Area Plasterboard & Fire Resistant board

BGC Acoustic Rated Plasterboard
BGC Fibre Cement & Claddings
Adhesives, Jointing & Finishing Compounds

Polyester & Glasswool Insulation
